Education

Ajay Kumar Garg Engineering College, Ghaziabad

B.Tech in Computer Science Engineering

2023 – 2026

Percentage: 72%

Government Polytechnic Deeh Sadar, Unnao

Polytechnic Diploma

2020 – 2023

Percentage: 70%

Technical Skills

Languages: C++, Java, Python, JavaScript, SQL

Frontend: HTML5, CSS, React.js, Tailwind CSS, Next.js

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Django, Django REST Framework

Database: MongoDB, PostgreSQL

Tools: Git, GitHub, Postman, Vercel, Canva, WordPress

Concepts: CRUD, API Integration, Responsive Design, Version Control

Experience

Backend Developer Intern (Django) — NextBigE

Remote — Nov 2025 – Mar 2026

- Developed REST APIs using Django REST Framework for a news publishing platform.
- Designed relational models for articles, categories and tags; optimized queries using `select_related` and `prefetch_related`.
- Implemented filtering, pagination and search endpoints for large news datasets.
- Processed article text using Python for keyword extraction and categorization.
- Structured serializers, validation and API responses for frontend consumption.
- Reduced redundant database calls improving API response time.

Backend Developer Intern — PureWashr Pvt. Ltd.

Remote — Sep 2024 – Oct 2024

- Created APIs for order booking and service management.
- Designed database models and validation logic.
- Tested endpoints and handled API responses using Postman.

Projects

LilChat | [Live](#) | *React.js, Django REST Framework, PostgreSQL, Clerk, Cloudinary*

 [GitHub](#)

- Built a full-stack social media platform inspired by Instagram with posts, likes, comments, follow/unfollow, and messaging features.
- Developed REST APIs using Django REST Framework for feed generation, user management, chatbot integration, and content delivery.
- Integrated Clerk authentication and Cloudinary for secure user access and scalable media management.
- Implemented personalized feeds, engagement tracking, and responsive UI using React and PostgreSQL.

LMS | [Live](#) | *MERN, OpenAI API*

 [GitHub](#)

- Built an AI-powered Learning Management System that generates personalized learning paths from user prompts.
- Integrated OpenAI API to generate structured modules, lessons, quizzes, and learning roadmaps dynamically.
- Implemented authentication, course management, and responsive user interfaces using the MERN stack.

Bookstore | [Live](#) | *MERN*

 [GitHub](#)

- Developed a full-stack bookstore management application with complete CRUD functionality for books and inventory.
- Built REST APIs using Node.js and Express.js and integrated MongoDB for persistent data storage.
- Designed responsive React interfaces with form validation and seamless frontend-backend integration.

Achievements

2nd Prize — IDE Bootcamp 2024 | [Certificate](#)

- Recognized for innovative project development and presentation.

Top 40 Teams — AKTU Innovation Hub | [Certificate](#)

- Selected among top 40 teams for innovative solution development.
