Education

Ajay Kumar Garg Engineering College, Ghaziabad
B.Tech in Computer Science Engineering

2023 – 2026
Percentage: 72%

Government Polytechnic Deeh Sadar, Unnao
Polytechnic Diploma

2020 – 2023
Percentage: 70%

Technical Skills

Languages: C++, Java, Python, JavaScript, SQL
Frontend: HTML5, CSS, React.js, Tailwind CSS
Backend: Node.js, Express.js, REST APIs, JWT Authentication, Django, Django REST Framework
Database: MongoDB, PostgreSQL
Tools: Git, GitHub, Postman, Vercel, Canva, WordPress
Concepts: CRUD, API Integration, Responsive Design, Version Control

Experience

Backend Developer Intern (Django) — NextBigE

Remote — Present

- Developed REST APIs using Django REST Framework for a news publishing platform.
- Designed relational models for articles, categories and tags; optimized queries using `select_related` and `prefetch_related`.
- Implemented filtering, pagination and search endpoints for large news datasets.
- Processed article text using Python for keyword extraction and categorization.
- Structured serializers, validation and API responses for frontend consumption.
- Reduced redundant database calls improving API response time.
- Implemented role-based workflows (create, edit, publish).

Backend Developer Intern — PureWashr Pvt. Ltd.

Remote — Sep 2024 – Oct 2024

- Created APIs for order booking and service management.
- Designed database models and validation logic.
- Tested endpoints and handled API responses using Postman.

Projects

LilChat | [Live](#) | *React + Django*

 [GitHub](#)

- Built a full-stack social media platform inspired by Instagram with post sharing and user interaction features.
- Developed the frontend using React and the backend using Django REST Framework with secure authentication APIs.
- Implemented responsive UI, user profiles, content management, and seamless frontend-backend integration.

Crazy LMS | [Live](#) | *MERN + OpenAI*

 [GitHub](#)

- Generates structured learning courses from user prompts using OpenAI API.
- Implemented authentication and course storage APIs.

Bookstore | [Live](#) | *MERN*

 [GitHub](#)

- Developed CRUD system for managing book inventory.
- Connected REST APIs to React frontend.

Achievements

2nd Prize — IDE Bootcamp 2024 | [Certificate](#)

- Recognized for innovative project development and presentation.

Top 40 Teams — AKTU Innovation Hub | [Certificate](#)

- Selected among top 40 teams for innovative solution development.
- Solved DSA problems on LeetCode (Arrays, Recursion, Linked List, Stack, Queue, Hashing).
- Deployed multiple full-stack applications using Vercel and REST APIs.
